

We invite you to sponsor the **Domestic Fair Trade Association 2016 Annual Meeting**, to be held in Bellingham, WA January 8, 9th, and 10th. The DFTA Annual Meeting is a unique event that brings together diverse stakeholders from across the food and agriculture system for several days of community building, educational workshops, and cross-sector collaboration. The DFTA draws on both the international fair trade movement and the organic movement in advocating for and practicing a fair, equitable and sustainable agricultural system. Our members work together to support family-scale farms, farmer-led initiatives such as farmer co-ops, just conditions for workers, and organic agriculture. Please join us in supporting this special gathering.

Our annual meeting takes hours of hard work from our dedicated volunteers, board, and staff. We depend on the generosity of our sponsoring organizations and businesses to help our annual meeting to be successful and remain financially accessible for low-income attendees such as our farmworker and small-scale farmer members. You can sponsor our meeting in several ways:
